This Machine Computes Time Interest and Discounts Accurately

Much Quicker Than Mental Calculation

HERE is the machine that does away with mental computation of Time, Interest and Discounts. It has won its place in banking and commercial institutions where interest-bearing transactions are negotiated because it saves time and money —*positively.*

It computes Time, Interest and Discounts; gives the number of days between any two dates; reckons the date of maturity and detects whether the date of maturity falls on a Saturday, Sunday or holiday.

It tells all these things by one turn of a wheel—a simple, instantaneous operation.

—and it is absolutely accurate.

If your bank or mercantile institution uses the Meilicke Calculator, you may be sure that the Time, Interest or Discount on your notes has been figured accurately.

We Believe YOU Will Eventually Join These Bankers
